NEW CONTRACT FOR STREET LIGHTING

Council Concludes Arrangement Which Will Result in Big Saving to People

At a meeting of the council Friday night a new contract was entered into between the city and the Pacific Gas & Electric Company by which the current for the street lights will hereafter be furnished at a price equal to one-fourth of the rate heretofore prevailing. By the terms of the contract the city will buy its current in bulk. A switch board will be installed in the new hall on Center street from which point the electric fluid will be controlled and distributed throughout the municipality. The new prices agreed upon are: For 10,000 kilowatt-hours per month, 2 1-4 cents per kilowatt-hour; between 10,000 and 15,000 kilowatt-hours, 2 cents per hour; for all over 15,000 kilowatt-hours 1½ cents per hour.. For an increase of 1-4 of a cent per hour the company agrees to supply the street lamps and care for the system. This amendment to the contract may be made at any time after thirty days' notice is given.

Under the new conditions the city will not only take current for the streets but will supply the library and schools and such other public buildings and private consumers as it may see fit. The old rate was 8 1-3 cents per kilowatt-hour. It is estimated that over $150 will be saved monthly with the present service, and when the city extends its system and gives an all-night service there will still be a substantial saving.

A second contract between the power company and the city was accepted, permitting each to use the poles of the other at a yearly rental of $1.25.

The new contract is the outcome of a movement began four years ago when the city took steps to segregate its lighting system. During the long term of the old contract the distributing plants of the city and the company had become so interwoven that it required months of labor and research of the municipality's records, and the aid of an expert to determine just what was owned by the city. This work completed, steps were taken to secure a lower rate. Mayor Merrill had many conferences with the company's officials and for a time the council thought favorably of installing its own power plant. Terms were finally agreed upon and at the meeting Friday the new contract was accepted and the chairman and clerk authorized to execute the same on behalf of the city.

The machinist was directed to prepare plans and specificatione for a switchboard to be placed in the city hall for which bids will be received.

The finance committee rendered a report rcommnding that a committee composed of Geo. W. Lovie, Wm. Jamieson, Mark Felton, E. J. Fowler, A. S. Kalenborn, John W. Poole, and H. W. Schaberg be appointed to assist in fixing values, advising and otherwise assisting in preparing the city assessment roll. It was recommended that the committee serve without pay. Fred Chilcott was recommended as a suitable person to do the field work in making the assessment, for which he is to receive $5 per day and it was also advised that John Ginty of San Francisco be invited to give the council and the assistant assessors a talk on the best methods of preparing the assessment roll.

Nelson Andrews, who is building a home in Wellesley Park was granted permission to cross the Whipple road for the purpose of connecting with the sewer on Birch street in Dingee Park.

A representative of the grammar school board stated that it was the desire of that body to transfer the old school property to the city to be made into a park. A conference of the two boards will be held on the evening of June 3d for the purpose of arranging the terms of the transfer.

DRIVER INJURES SELF AND DAMAGES BRIDGE.

Harry Anderson, a San Francisco fireman drove over a bridge Saturday near La Honda and not only injured himself but put the bridge out of commission. He was coming down the Alpine road when his horse fell and the rig and its occupants went into the creek. Anderson had his arm and three ribs broken and his back wrenched, and the bridge was so badly damaged that it has not since been fit for use. Anderson had a companion with him who escaped unhurt. His name could not be learned.

Highway Will Be Asphaltum.

The first piece of road to be constructed by the State Highway Commission will be that between Burlingame and South San Francisco. It will be 5.4 miles, 24 feet wide, of concrete base and asphalt finish— just like the streets of Redwood City. This has been advocated by the County Development Association and it is very gratifying that the commission has adopted it.

ELMER FERGUSON MEETS WITH PECULIAR ACCIDENT

Elmer Ferguson, a Stockton youth, aged 20, who claimed to be a baseball player, met with a peculiar accident at the railroad station Sunday morning. The young man came down from San Francisco on the flyer, leaving the city at 8 o'clock, his intention being to get off at San Mateo. The train went through that city without stopping and when it reached this city Ferguson determined to get off although the train did not come to a stop. He jumped and when he struck the ground he was rolled over and over. His rough contact with the ground caused a revolver that he carried in his left coat pocket to explode and the bullet entered his left shoulden in front and passed through, coming out in back.

Ferguson was taken to the office of Dr. Ross and his wound dressed after which he took the train for his home. Dr. Ross says he is not seriously hurt. He gave his address as 101 Main street, Stockton.

An unaccountable feature of the accident is how Ferguson was permitted to board a train for San Mateo that does not stop at that city. No one has been found who saw the accident.

WRITER OF WORTHLESS CHECKS HELD FOR TRIAL

City Marshal Coleman was sent to Visalia by Sheriff Mansfield Friday to return Robert H. T. Olsen to this city to answer to a charge of forgery. Eleven months ago Olsen was conducting a cleaning and dyeing shop on Main street. He left town very hastily but before going managed to float some worthless paper, amounting to about $50, among the business men. His wife who remained in town after Olsen's departure, made good his peculations, except one check issued to the Eureka Restaurant for $15 to which Olsen signed the name "Robert Conley."

A warrrant was issued for his arrest and Olsen was located in Visalia through a description of him that had been sent out by Sheriff Mansfield. He was then serving a term in prison for beating a hotel. Mr. Coleman arrrived in Visalia on the day Olsen was released from jail and rearrested him. He returned with his prisoner Sunday night.

Olsen had a hearing in Justice Lampkin's court Monday and was held to appear for trial in the Superior Court and in default of $1000 cash bail was loked up.

PUPILS FORMALLY BID ADIEU TO TEACHER.

A pleasant event was held in the assembly hall of the grammar schol Monday night, when the seventh grade entertained in honor of their teacher, Miss Caldwell, who will leave Redwood at the end of the term to enter the Oakland school department. Miss Caldwell had come to the school house expecting to attend a teachers' meeting and her surprise was complete when she was greeted by all the members of her class. Games, music and dancing passed the evening and delicious refrshmnts were served. While at the table, John Lanfear on behalf of the class, presented Miss Caldwell with a beautiful gold bracelet, while Miss Beeger offered the good wishes of the class in presenting carnations.

Oakland's Mayor Arrested.

Mayor Frank K. Mott of Oakland was arrested at Burlingame Monday. Mott was taking a party of friends over the Wishbone boulevard in his big touring car. He was a little over anxious to reach San Francisco on the last lap of the trip and was hurrying along El Camino Real through Burlingame when arrested. Mott placed $10 bail for appearance before Recorder George Anderson.

PROMINSNT PIONEER TAKES LAST JOURNEY

Col. Nathaniel J. Britton Expires Suddenly at His Home in San Carlos

Nathaniel J. Brittan, one of the best known and most public spirited residents of the peninsula, passed away at his home at San Carlos Monday morning. He was found dead in bed by his daughter, Mrs. L. E. Kendall. His death was caused by heart disease from which he had long been a sufferer.

The deceased was a native of New York, aged 64 years. He had practically spent all of his life in California, coming to this State when four years old. His father was John W. Brittan, a pioneer merchant of San Francisco, one of the founders of the hardware house of Brittan and Holbrook, now the wellknown firm of Holbrook, Merrill & Stetson. The elder Mr. Brittan was one of the early settlers on the Peninsula and had acquired a large tract of land lying between this city and Belmont, and extending into the western hills.

Nathaniel Brittan was a man of brilliant educational accomplishments. He was a graduate of the law department of Harvard, although he never followed his profession. He traveled extensively throughout the world and was a collector of rare antiques. After the death of his father he settled down to the management of the latters' estate. Thirty years ago he married Miss Isabelle Fallon of San Jose who has since died. He is survived by three daughters, Belle J. Brittan, a student of Mamlin's School. The others are Mrs. L. E. Kendell of San Francisco and Mrs. Nathalie T. Hewson of Los Angeles. He has a brother, Judge William J. Brittan, living in Oakland and a sister, Miss Mary Burta Brittan of San Francisco. Miss Brittan is on her way to Europe and every effort is being made to locate her to tell her of her brother's death.

The deceased was a member of the Pacific Union, Union League, Bohemian and Olympic Clubs of San Francisco and the Elks and Masons. His property in this county comprises 1000 acres near San Carlos and valuable holdings in San Francisco and Oakland.

During his younger years Mr. Brittan was connected with the San Francisco militia and held the office of major, by which he was known among his friends. The deceased will be interred today by the Masons, privately.

ANOTHER UNJUST DISCRIMINATION.

The decision of the State Railway Commission rendered Tuesday, by which a sweeping reduction was ordered in the charges for long distance telephone service between San Francisco and Oakland, calls attention to another instance in which the peninsula section is made to suffer in the cost af its public utility service to the advantage of the trans-bay sections. Although for years the long distance toll between San Francisco and Oakland has been but 15 cents, the Railway Commission, after a thorough and expert investigation, declares that charge to have been an exorbitant one and has ordered a reduction of one third in the rate.

There certainly can be no valid reason why the peninsula section should not be given the benefit of a similar reduction. The cost of installing or of maintaining the service down the peninsula can not be greater than that crossing the bay. Certainly it cannot be claimed that the efficiency of the service rendered is an excuse for the maintenance of the present rate, for it would be difficult to imagine any service at all which could be less satisfactory than that which is given to subscribers of this section at the present time.

PASSING OF A NOBLE SOUL.

The death of Rev. Father R. E. Kenna, which occurred in San Francisco last Sunday, marks the passing of another of the master minds of California. Not only has the Catholic Church lost a devoted priest and brilliant educator, but the State has lost a loyal citizen, ever ready to contribute his share to its advancement, and humanity one of its truest friends.

While, as becomes a true priest, his first allegience was to his church, his was a heart too broad for the cofinnes of sectarian limitations, and in acts of humanity he knew neither faith nor sect. His tender, sympathetic nature drew to him the distressed and heavily laden of all creeds and shades of thought. Those in distress, either of mind or body, turned to him as a friend who would understand their need and afford them such relief as was in his power to bestow. To him the appeal of those in distress was never made in vain.

As an educator, he possessed the priceless gift of ability to win the confidence and love of those who came under his direction. His wonderful learning and splendid executive ability made him a successful executive of the institutions of learning over which he was called to preside.

As a true citizen of California, his splendid breadth of manhood made him interested in the temporal advancement of the state as well as in the spiritual welfare of its citizens. To the upbuilding of her institutions he was ever ready to contribute the best of his efforts.

He was a true priest, but more than that he was a true man. Among those not of his faith he gave the impression of a man of toleration and broad humanity. His was a pure life, and the world is the richer for his splendid example.

A BUSINESS PROPOSITION.

That this city is to be given a business administration at the hands of the present Council can have no stronger evidence that is shown by the careful consideration which is being given by the Trustees to the important question of making up of the assessment rolls. In all of the preplexing questions of municipal goverment, there is probably no more serious poblem than that of fixing the valuation of property for the purpose of taxation.

While it is essential that funds sufficient for the conduct of the affairs of the city should be secured, it is equally important that there should be a just distribution of the burden. It this can accomplished, it matters but little to those who must bear the expense whether the valuation be high or low. In either case the cost will be the same.

The suggestion of an advisory committee of citizens to assist in this work would seem to be an eminently wise one. In the very nature of things the judgment of any one man can not be infallible. No individual can be expected to possess a sufficient knowledge of locality and surroundings to arrive at an absolutely correct and just determination of the actual value of each individual piece of property. Nor, as has been suggested, is it just to the people or fair to the individual to place this responsibility upon the shoulders of an official who must depend for position upon the suffrages of the people with whom he must come in contact in a work of this character. The men selected for this committee are well suited for the work and should insure satisfaction.

At the same time it would seem to be the part of wisdom to give heed to the suggestion of Trustee Deleau and seek expert advice in the direction of the work. The problem at best is a difficult one, requiring systematic planning, such as can only result from special training. True this might involve some little expense, but we belive the slight cost would be approved by every taxpayer.

COMPETITION PROMISED IN ELECTRIC TRANSPORTATION

Development Associaiton Working for Second Road Down Peninsula

Within the past two weeks, three different sets of men interested in railroad transportation have been interviewed or held conferences with leading mmbrs of the Development Association relative to the building of competing systems down the peninsula.

Except in one instance, these plans have not progressed beyond the ihitial stage but the boosters have taken these circumstances as a sign that capital is now looking toward the peninsula with more favorable eyes than ever bfore. Confident in the belief that a competing system will be a reality down the peninsula before the close of the Panama-Pacific exposition, the railway and transportation committee of the Development Association has been reorganized for a thorough investigation of this subject.

The committee now consists of G. J. McGregor of Burlingame, chair man; H. C. Tuchsen, Redwood City; W. J. Martin, South San Francisco; W. H. Brown, San Mateo; D. G. Doubleday, Millbrae. The committee started its work on Friday and will cover the whole subject as soon as possible from the problem of right of way and franchises to entrance into San Francisco and costs of construction in order that any railroad schemes may be handled along business lines. As expected forerunners of a network of elctric roads is the projected Easton railway, which, although short, should prove a great factor in upbuilding that territory. Ansel M. Easton has already purchased the rails for his road in the east and is stated to have decided upon the use of a car of the electric storage battery type which will do away with the use of unsightly poles.

HIGH SCHOOL CLASS RECEIVE DIPLOMAS

Annual Commencement Exercises of Sequoia High Attracts Immense Audience

The fifteenth commencement of Sequoia Union High School was held in the Alhambra last evening. A large attendance greeted the interesting program that was arranged by the faculty and pupils. The stage was becomingly decorated with class colors, banners, potted plants and flowers. The graduating class was gaily dressed and beamed with delight on receiving their diplomas for which they have worked for the past four years. The program opened with a half hour of music under the dirrection of O. M. Carrington. Miss Jessie Smith was the valedictorian of the class and her speech which is as follows was a splendid effort and was well delivered. It is well worth persual and study.

The Valedictory

What is the greatest word? In the poem entitled "The Greatest Word" we ar told that there is no greatest word, that there is no word in our language typifying the greatest thing in life, but that there are a number of great words which when taken collectively represent the gratest things in life. These are love, truth, honor, pleasure, acting, faith, hope, beauty, duty. But there is a word which has been omitted, the really great word, which has been omitted, the really greatest word; a word which rises far above all these for it is one which includes all these as necessary elements. It is a word which stands for the highest goal attainable in life. It is the word—success.

But this word in our progressive age seems to have lost its magic power to stir the soul. It appeals merely to our materialistic sense. Success. Why what does it mean?. As Professor Brander Matthews says in the mouth of ordinary Americans it means—material prosperity. The truly successful man is the one who stands high up in the world, who is the head of some big business or institution, who has amassed a fortune. (It does not matter how,) who does all within his power to advertises himself, to keep himself before the public. He succeeds. This is the type of successful man in the eyes of the majority of people in the United States today. Indeed this fact is admitted without shame by prominent men in their public statements.

Success taken in this sense is not success. Money and high position are Sirens. He who hears their alluring call and cannot resist, who does not heed that inner voice within him is carried onward under the spell of the sweet music until he reaches the Sirens Isle when these false creatures gradually eat away his soul and starve his capacity for getting out of life the things worth while for giving to the world what he might have given had he not heeded that false call. He gains his aim, but his aim is low. He seems to the world to be successful but deep in his heart he knows that he has failed for it is not achievement but aspiration and effort that are the true measures of success.

He who on the other hand has force of character enough to turn a deaf ear to the allurments of this worldly voice gains true success. He gains a success which possibly is marked by a long line of defeats, a success rising as a "monument in the midst of many failures," a success which many a man has gained whose deeds are unchronicle, whose name is forgotten, whose success was uncrowned during his lifetime, but received its crown in some social adcancement of the race. But is this then too distant and bare a recompense to strive for? Is it then useless to fix the object of achievement in life to the highest star? It is not achievement but aspiration and effort that are the true measures of success.

Browning says:

Then welcome each rebuff
That turns earth's smoothness rough,
Each sting that bids not sit nor stand but go:
Be our joys three part pain,
Strive and hold cheap the strain,
Learn not account the pang
Dare never grudge the throe.
From thence a paradox, which comforts while it mocks:
Shall life succeed in that it seems to fail
What I aspired to be and was not
Comforts me: a drute I might have been
But would not sink in scale.

Success is the highest goal attainable in life. In order to attain its goal we must have the elements which constitute true Success. Integrity, preseverance, sobriety faithfulness. Save for our fellow man on one, can ever hope to gain the greatest thing in life without integrity; without truth, honor, trustworthiness is an absolute failure. In pursuing the objects of our ambition, in successfully coping with the forces working against us we must possess dogged perseverance. Respect for self, respecty for nature's laws, respect for man's laws are essentials of a successful life. Sobriety is one of the hardest elements attainable for man, but is is necessary. We must be true to all we do in life, faithful to every trust. May we not shirk and may that word faithfulness be imprinted deeply upon the minds of all. But the last element is by far the most essential to a truly successful life. Save for our fellow man. Man does not live for himself alone. We were put on this earh to serve. However poor in nature we may be we can contribute something to the welfare of mankind. It is for us rather to emulate than compete with, rather to help than hinder, rather to strive with and for than against mankind. Do not heed the lure of what men call success, "but seek the success of one in the success of all." The most useful man is the most successful. Sercise to our fellow man is the true gague of life.

Now may each one of us, whatever place in the world's line we take, strive to attain that which the greatest word in our language stand for—success..

We the class of 1912 express our appreciation to the teachers of Sequoia who have instilled into us the necessity of possessing these elements that make a successful life.

Trustees, teachers, students of Sequoia we wish you good-bye.

G. Ellinger, the assistant station agent here for over a year has been transferred to San Mateo. His place here has been taken by T. C. Nye of San Jose.

William Hammerson, who has been confined to his home for over a week with a sevre illness, is slowly recovering and will soon be out.

Frank Hutchinson, one of the most expert gardeners of the peninsula, has accepted the position as chief gardener for Andrew Welch of Portola and he will shortly leave for that place.

The many friends of Mrs. Robert McNally will be pleased to learn that she is recovering from her recent illness and will soone be able to be around. She was threatened with pneumonia and owing to her advanced age her relatives and friends became alarmed.

John Jack has resigned his position as head gardner for Fred Sharon by whom he has been employed for many years. Mr. Jack has made numerous friends here who regret to see him go. He has no plans for the future but it is hoped he will decide to locate in this vicinity.

The Lubricating Product Company, a large manufacturing concern of San Francisco, has decided to locate at Ravenswood and is preparing to establish a big plant there. The concern expects to employ several hundred men when the buildings are completed. This makes the fourth manufacturing concern to locate at that favored place.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No charge can be made by the Assessor after he t rnes over his books to the Boasd of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor as well as to yourself, to have your assessment correct when you go to pay your taxes.

SEQUOIA DEBATERS WIN CHAMPIONSHIP

Local High School Pupils Defeat San Jose High Team by Close Score

Once again Redwood high school has carried off the honors in debating. Saturday night, at Mountain View Sequoia defeated San Jose in a championship debate, the points being 90.6 to 89.02. Two and a half years ago the school was asked to join the Santa Clara Valley Debating League comprising San Jose, Santa Clara, Los Gatos and Palo Alto. Since that time the students have met San Jose, the strongest school in the league, three times and have been defeated three times. They have met Palo Alto twice in this time and have won double victories each time. The first semester of this school year, San Jose defeated the home debaters, but in the second semester, the locals won both debates from Palo Alto.

This gave Redwood second place, with San Jose first. The final debate was held Saturday night with San Jose at Mountain View. Ray Griffin, who has debated all the time he has been in school, and Stephen Tichenor, went down to represent Redwood, accompanied by about thirty students and friends. Both boys spoke well and put up a very good debate. San Jose had one very weak debater and one very good one who had contested in the State League and was really a splendid speaker. It is putting it mildly to say there was excitement when the result of the judges was announced. Mr. McCrea is doing all he can to encouragedebating in the high school. Most of the credit for this debate however goes to Ray Griffin who has participated and helped out in nearly every debate the school has had, though Tichenor made a fine talk at Mountain View.

News From Northern Adventurers.

Letters have been received from Emmett Gunning and Clarence Lowe who sailed for the north a month ago on the Alaska Codfish Company's ship City of Papete. Their voyage will take them to the Bering Sea where they will spend six months at fishing, returning to this city late in the year. A letter has also been received from Walter Green who spent the winter in the north at Fort Yucon in the heart of Alaska. He is with a surveying party that is in charge of his brother. All three of the Redwood City adventurers are in good health and enjoying their visit to the north.
